SUGAR
CANE

senator[®]
Extremordinary. Since 1920.

NATURE PLUS

- Push ball pen.
- Opaque, shine-free finish barrel and clip surface.
- The visible parts of Nature Plus are made of a PLA-based bioplastic; a biodegradable material (compostability according to EN 13432 - certificate on request.) Derived from renewable and non-finite raw materials (sugar cane).
- Fitted with senator[®] magic flow G2 refill (1.0mm).
- Ink colour: black.
- PMS Service: from 20,000 pieces.
- All our tools and production processes are designed with a view to avoiding harmful substances, using recycled materials, and avoiding waste.
- High class branding ensures quality durable advertising, guaranteed to last the lifetime of our pens.
- Our entire pen range is fitted with long life high-quality refills. This means brands can contribute to fighting the war on waste, as well as maximising repeat impressions.

TOP TIP

Make sure to keep watering the plant to keep it nourished.

This pen pack is compostable and lined with seeds that can be planted with these simple, easy instructions:

1. Get a plant pot.

2. Fill it with soil.

DID YOU KNOW?

After the pens long life, you can plant your Nature Plus also, as all of the external components are biodegradable (made from sugar cane).

6. Watch it grow!

3. Bury seeded pen pack in the soil.

4. Add water.

5. Place in the sun.
